Subject: MLPAComments: support for MLPA

Thank you for your participation in this important process. It has been a long and difficult journey. Your efforts are appreciated! My husband and I live in Cambria. We are volunteers with California State Parks, Friends of the Elephant Seal, The Monterey Bay National Marine Sanctuary, USGS, and the Piedras Blancas Light Station. We believe proposal 2R is the best choice of the various proposals. We support the strongest protection possible for the Piedras Blancas area because it meets all of the requirements. It is also the perfect location for public awareness and education about MPAs. We also urge the creation of signage in the Piedras Blancas area acknowledging all the members who worked so hard on this process.

Carole Adams, Cambria, CA
